Video Extender Rack Mount Kit VE-RMK2U
Installation Guide

The VE-RMK2U kit provides a mounting frame and accessories to install 12 ATEN Video Extenders in 2U of rack space, and is compatible with ATEN VE800A, VE803, VE810, VE600A, VE602, VE560, and CE100.
Package Contents

| Qty	Description
1	VE-RMK2U frame
12	2U mounting plates
26	plastic captive screws
36	countersunk head screws

Installation

1. (A) Position the VE-RMK2U Frame on the front of the rack and align the holes in the mounting brackets with the holes in the rack, then screw the mounting brackets to the rack. Rack screws are not provided. (B) Remove the two screws to detach the center brace.

2. Place the video extender on the 2U Mounting Plate and align the holes, then screw the video extender to the mounting plate.

M3 x 5 countersunk head screws

Front

Rear

3. Slide a 2U Mounting Plate with video extender attached onto a slot in the VE-RMK2U Frame, aligning the screw holes and fitting the notches. Secure the mounting plate to the frame with two Plastic Captive Screws. Repeat the process with each video extender you are installing.

Plastic Captive Screws

4. A complete installation with 12 ATEN video extenders will look like the image below.
