Installing VM784 / VM884 to the VW Series Video Wall Processor

1. Remove the covers of an output board slot and an input board slot.

The VW3620 is used as an example to illustrate the installation process for compatible Video Wall Processor models.

2. Insert the VW784 input board / VW884 output board into the slot of the VW Series video wall processor.
 - Install the VW784 video input board(s) to the video input board slot(s) or the function board/video input board slot(s).
 - Install the VW884 video output board(s) to video output board slot(s).

VW784 Installation

VW884 Installation

3. Gently push the VW784 video input board / VW884 video output board until it is fully seated in the slot.
4. Press down on each thumbscrew head to position it, then tighten the thumbscrew by turning it clockwise.
